

## Product Guide

# 330/ 380

The 330/380 defines practicality in today's workplace. Employees can clock in and out with the swipe of a card or by using a Personal Identification Number (PIN). With the optional PrintReader, employees can also clock in and out using this system designed for biometric verification.

Online timekeeping data management makes it easy to view, edit, and run reports using your web browser while flexibility and affordability make the 330/380 ideal for just about any workforce.

## Features

- Magnetic stripe card slot
- Wall mount
- PrintReader biometric compatible
- Reprogram existing 3rd-party clocks
- PIN Entry
- Analog connection
- WebClock optional

## Solution

Ideal for employers desiring a combination of exceptional ease of use, flexibility and affordability. Can be set up and conveniently placed on site in minutes.

Simple, Affordable  
Timekeeping

**Old School**

The 330/380 connects to the Internet through an Analog (standard phone/fax) line for data transmission.
